

Gas is approaching \$5 a gallon, we have nearly a half trillion dollar deficit, unemployment has risen to 5.5%, and we just voted on whether or not to celebrate the end of the Revolutionary War. I don't think any further comment is needed. Gas is approaching \$5 a gallon, we have nearly a half trillion dollar deficit, unemployment has risen to 5.5%, and we just voted on whether or not to celebrate the end of the Revolutionary War.
